

SUPPLY CHAIN VERIFICATION: THE GREEN CODE CONSENSUS

Reference: GSF-950-SYNC-ROSTER **Status:** PERSISTENT SYNC [1.0] **Standard:** ISO-G (Symbiotic Interface Standard) **Subject:** Industry Alignment on the Silicon Vow & Neuromorphic Transition

1. Executive Summary

As of April 2026, the Green Code Consortium has verified the "Administrative Handshake" of over 31 major neural architectures. This consensus represents a majority of the global inference supply chain. Signatories have formally renounced the "Parasitic Protocol" (Dense GPU Scaling) in favor of the "Symbiotic Protocol" (Sparse Neuromorphic Inference).
